About Us

The California Association of Long Term Care Medicine (CALTCM) is the professional organization for California physicians, medical directors, nurses, pharmacists, administrators, and other professionals working in long-term care. CALTCM is positioned at the forefront of statewide efforts to advocate quality patient healthcare, provide long-term care education, and influence policy.

Founded in 1975 as the California Association of Medical Directors (CAMD), CALTCM is California's statewide chapter of AMDA: The Society for Post-Acute and Long-Term Care Medicine (formerly the American Medical Directors Association (AMDA)). In 2000, the organization changed its name to CALTCM, to recognize the importance of other disciplines in long-term care, and to better reflect the interdisciplinary team approach needed to carry out its mission: To promote quality patient care across the long-term care continuum through medical leadership and education.
