Infection Prevention & Control Leadership Program

CALTCM is proud to announce that it has received an award from CDPH's Healthcare-Associated Infections (HAI) Program. Our project, the Leadership and Management in Geriatrics Infection Prevention and Control Leadership Program, combines leadership training, Quality Assurance/Process Improvement exercises, and interactive team-based training to build cohesive leadership teams that will work collaboratively and effectively to improve processes critical to the delivery of safe, high-quality, person-centered care.
