

Best Practices in Dementia Care:

Do's and Don'ts

Faculty and Planner Disclosures

It is the policy of California Association of Long Term Care Medicine (CALTCM) to ensure balance, independence, objectivity, and scientific rigor in all of its sponsored educational programs. All faculty participating in any activities which are designated for *AMA PRA Category 1 Credit(s)™* are expected to disclose to the audience **any** real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the CME activity. This pertains to relationships with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the subject matter of the presentation topic. The intent of this policy is not to prevent a speaker with a potential conflict of interest from making a presentation. It is merely intended that any potential conflict should be identified openly so that the listeners may form their own judgments about the presentation with the full disclosure of the facts. It remains for the audience to determine whether the speakers' outside interests may reflect a possible bias in either the exposition or the conclusions presented.

The following faculty and planners have indicated any affiliation with organizations which have interests related to the content of this conference. This is pointed out to you so that you may form your own judgments about the presentations with full disclosure of the facts. All conflicts of interest have been resolved in accordance with the ACCME's Standards for Commercial Support.

Faculty and Planners	Role	Affiliation / Financial Interest	Name of Organization
